ITHACA GUN CO., ITHACA, N. Y.

*Marlin* repeating shotguns are guns of perfect proportions, made in 12 and 16 gauges, with simpler mechanism than any other repeater.

They have the *Marlin* solid top always between your head and the cartridge, the side ejector, and the closed-in breechbolt that keeps out rain, snow and sleet, dirt, leaves, twigs, and all other foreign matter. These features add greatly to the efficiency of a gun and to the comfort and convenience of the shooter.

The Model 16, 16-gauge *Marlin* is the only light weight repeating shotgun made. It weighs but 6½ pounds, handles fast and shoots close and hard. It is unequalled for quail shooting, for squirrels, rabbits and all small game.
